

MODEL 2300 LTS

Lift Truck Systems

TCI SCALES, INC.

200,000 lb. Capacity

The TCI Scales Model 2300 LTS provides check weighing for shipping and receiving of goods while eliminating needless, time-consuming trips to stationary scales. This dash mount scale system helps to prevent damage causing overloads. The Model 2300 LTS does not require periodic mechanical adjustment, is designed for rugged environments, and is also adaptable to nearly every lift truck model in operation.

FEATURES INCLUDE:

- Easy to read LCD readout (even in bright sunlight)
- Solid state electronics
- Weatherized cast aluminum housing
- Lbs/kgs select switch
- Only one external control to determine net weight of loads
- Conforms to MIL-T-21868A
- Complete with pressure transducer and installation kit

SPECIFICATIONS

Capacity

- 200,000 lbs.
